

The 6 p's: a framework for starting any new project

Tackling the skills gap: Follow our useful 6 p's framework to help young employees start any new project and make it a success. Find full details of how to use the framework at www.abnresource.com/framework-for-project-success.

1. Purpose	Why are you doing this? (Top level)	
	why(1)	
	why(2)	
	why(3)	
2. Plan	Project overview	
	How realistic is the plan (does it match the realities of your working week?)	
	Project microsteps	

	Map out all obstacles likely to face (and how to resolve these)	
	Estimated time and effort level needed for microsteps <i>Is the project worth the estimated time/effort, or could an alternative project be used?</i>	
3. Potential	Do you think this project will be a success? Can you go into the project with the belief you can achieve what you're setting out to? <i>If no, consider why and go back through obstacles.</i>	
4. People	The champions	
	The accountant(s)	
	The mentor(s)	
5. Progress	Microstep activity plan mapped out Set up of microstep progress tool for weekly progress diary	
6. Practise	3 x habits to form to help the project succeed
